

## **CONTENT**

	<b>PAGE</b>
Depositional and Diagenetic Characters of Sediment in The “D” Prospect East Java, Indonesia: Integration of Rock Properties and Isotopes as an Exploration Tool <i>Dicky Eko Hehakaya</i>	1-8
Reservoir Characterization and Depositional Environments of Deepwater Sediments in The Lower Cretaceous Succession, Offshore Rovuma Basin, Mozambique <i>Gil António Aníbal</i>	9-21
Nature and Relative Timing of Burial and Deformation of Sediments and Metasediments South of The Indosinian Suture, Ratchaburi Thailand: Implications for Fractured Basement Potential <i>Ng How Sik</i>	22-35
Mapping of the Complex Western Boundary Fault System Using Seismic Attributes, Pattani Basin, Gulf of Thailand. <i>Magdalene P. L. Tang</i>	36-44
Stratigraphic Traps Delineation, Southern Pattani Basin, Gulf of Thailand <i>Nesma Abdelaziz</i>	45-52
The Study of Reservoir Distribution and Connectivity using Seismic Attributes, Central Pattani Basin, Gulf of Thailand <i>Nusara Adisaipattanakul</i>	53-61
Controls on Porosity in Sandstone Reservoirs in Southern Pattani Basin, Gulf of Thailand <i>Pongtachchai Panachaiboonpipop</i>	62-69
Depositional and diagenetic character of carbonate sediments at the level of a basement high, Offshore Thailand: A new exploration paradigm for the region? <i>Poowana Chaikajornwat</i>	70-81
Maturity Modeling of the Chum Saeng Formation, Phitsanulok Basin, Thailand <i>Sureena Matha</i>	82-90
Detection of Reservoir Sands Using Seismic Attributes and Spectral Decomposition in The Southeast of Pattani Basin, Gulf of Thailand <i>Thanaphan Phatong</i>	91-101

## **CONTENT (cont.)**

	<b>PAGE</b>
Depositional Environment Of The Lan Krabu Formation In Sirikit Oil Field, Phitsanulok Basin, Thailand <i>Warintaphat Siriwattanakajorn</i>	102-113
Structural Evolution Using Section Restoration, Phitsanulok Basin, Central Thailand <i>Weenawadee Bahae</i>	114-124
The Study of Reservoir Distribution Within the Stratigraphic Traps Using Seismic Attributes, Central Pattani Basin, Gulf of Thailand <i>Wichanee Maneelok</i>	125-133
