	PAGE
Hydrocarbon and Reservoir Mapping Using Seismic Simulated Annealing Inversion, in Southern Pattani Basin, Gulf of Thailand <i>Egi Ramdhani</i>	1-12
High-Resolution Mapping of Plio-Pleistocene Reservoir Depositional Facies in Zawtika Gas Field, Gulf of Moattama, Using Stratal-Slicing Techniques and Attribute Analysis <i>Luptawan Intasorn</i>	13-24
Mapping Of Fault System Related To Salt Movement In Volve Field, Offshore Norway, North Sea <i>Teerapong Jiratitipat</i>	25-36
2D Petroleum System Modelling and Hydrocarbon Potentiality of Huai Hin Lat Formation, Khorat Plateau, Thailand <i>Theeravet Netrasuvarn</i>	37-47
Fractured Basement Reservoirs in South Pattani Basin: Seismic Recognition and Integrated Multi-attributes Analysis <i>Ugi Kurnia Gusti</i>	48-56
Dolomitization related to fracture porosity evolution: a case study of carbonate outcrops in Nam Maholan Formation <i>Doungdech Kananusak</i>	57-67
